India's government banned nearly 52 Chinese mobile apps on Monday, including TikTok, citing national security concerns, after a deadly clash between their militaries this month raised tensions between the two countries to the highest level in decades.

The fighting two weeks ago, along the disputed border between the world's two most populous countries, left 20 Indian soldiers dead and an unknown number of Chinese casualties.

In addition to TikTok, the popular video-sharing social networking platform, the banned apps include WeChat, UC Browser, Shareit and Baidu Map. for further information follow the link from <b>New york time</b>

Russian health authorities are preparing to start a mass vaccination campaign against coronavirus in October, the health minister has said.

Reuters, citing anonymous sources, said Russia's first potential vaccine would be approved by regulators this month. However, some experts are concerned at Russia's fast-track approach. On Friday, the leading infectious disease expert in the US, Dr Anthony Fauci, said he hoped that Russia

- and China - were "actually testing the vaccine" before administering them to anyone. For further information follow the link from <b>BBC NEWS</b>

**Rape case in the capital of India**

Two women, including a minor, were allegedly raped by two men in south-east Delhi's Pul Prahladpur on Wednesday, the police said. They confirmed that a 23-year-old Faridabad resident has been arrested in connection with the case. A senior officer said the two friends, aged 17 and 21, left their residence in Pul Prahladpur on Tuesday to go to the market where they met two persons known to them. The four decided to spend time together and went to a hotel where they were not allowed a room. After this, they went to the rented accommodation of one of the boys. [read more from Hindhu news](#)
